* Carry out a Risk Assessment to decide appliance suitability (Environment Check)

Additional copies available at priorytrainingacademy.co.uk

Key Information

- Failed items are to be disabled, labelled, recorded and removed to a quarantine area
- Remove old 'PAT Test' labels before applying the new label
- Never put 'PAT Test' labels on plugtops - put them on the equipment or fixed cord
- Repairs should only be carried out by competent personnel

Earth Continuity	0.00Ω to 0.10Ω	Instant Pass
	Greater than 0.10Ω	Apply Lead Compensation
Insulation Resistance	≥ 1.0 MΩ	Instant Pass - Class I
	≥ 2.0 MΩ	Instant Pass - Class II
Current Leakage	≤ 5.0 mA	Instant Pass - Class I & Class II

Repairs
